REPLY TO THE ATTENTION OF:

Ms Charmaine Shawana
Tribal Historic Preservation Officer
Saginaw Chippewa Tribe of Michigan
6650 East Broadway
Mount Pleasant, Michigan 48858

Dear Ms. Shawana:

Pursuant to Section 106 of the National Historic Preservation Act (NHPA), 16 U.S.C. § 470, et seq., I am writing to notify you that the U.S. Environmental Protection Agency has reviewed a cultural resource assessment related to a construction permit for Summit Petroleum in Mount Pleasant, Michigan, to determine what impact there may be on listed or eligible historic properties. Specifically, EPA notified Summit Petroleum that it is required to implement steps to assure compliance with the NHPA and its implementing regulations. The purpose of this letter is to seek concurrence from you on our determination that the proposed project will have no adverse effect in relation to the Tribal minor New Source Review (NSR) permit for this facility.

Summit Petroleum has submitted an application to obtain from EPA a minor NSR construction permit for its existing plant located in Rosebush, (Isabella County). I have enclosed a copy of Summit's August 29, 2012, permit application for your review. Based upon the information submitted and EPA's understanding of the proposed permitting action, EPA finds that the proposed permitting action will have no adverse effect on any listed or eligible historic properties. By this letter, EPA is fulfilling its obligations pursuant to Section 106 of the NHPA for the Summit Petroleum permitting action. If you have questions with respect to this letter or disagree with this determination, please contact Constantine Blathras, of my staff, at (312) 886-0671.

Sincerely,

Genevieve Damico
